Students carrying 12 or more hours were eligible in the Division of Basic Studies and Schools of Business, Home Economics, Music and Social Welfare if they had an average of 3.0 (B) or higher.

Students in the School of Engineering Science were required to make a 3.25 average and those in the College of Arts and Sciences, College of Education and School of Nursing were required to make a 3.5 average.

By home town the students on the Dean's List included:

Pahokee—Pam Boe, Charles L. Robertson, Constance Singletary. Belle Glade—Anna Marie Lachance and Kathryn A. Zywicki.

Cash For New Schools To Come From Bond Issues

"Palm Beach County is receiving only \$460,000 from Tallahassee this year to build new schools and additional classrooms," County Superintendent Robert W. Fulton has announced. All other building money has to come from bond issues.

"This year Palm Beach County schools have almost 1800 more students than they had last year," Mr. Fulton said. "Since the typical elementary school is built for a desirable maximum of 720 students, this means that our school population growth this year has been equivalent to a need for 2½ additional elementary schools."

"But, \$460,000 represents the approximate cost of adding only one-half of one new school, if the costs of land purchase and improvement, construction, equipping and

architects' fees are all properly included."

"Next year we expect to increase another 1800-2000 in the number of students—that is another 2½ schools, but we will again receive from the State only sufficient funds to produce one-half of one elementary school. The remainder of our needs will have to be supplied by county and State bond issue money."

"This gap between construction needs and State financial support has been worsening after each year. That's why we, and other growing areas are always behind in our school construction despite the fine support of our people in voting local bond issues to assist. That's why we always have need of portables," said Superintendent Robert W. Fulton.

Not Drop-Outs, Not Way-Outs Be The Give-Outs

GAINESVILLE—"Let others be the drop-outs, the way-outs. You be the give-outs," a Florida Cabinet member challenged 600 4-H club members here.

Comptroller Fred O. "Bud" Dickinson, whose daughter is a 4-H'er, told his youthful audience that he knew of nothing that would be more meaningful to them in the years ahead than their 4-H training in citizenship, leadership, and service. "The survival of America depends upon the kind of training you are receiving in 4-H," he said.

"You are the flower of the American dream. You are in the sunshine of tomorrow. It is tomorrow, with all its promise, that each of you holds in his hand," Comptroller Dickinson told the young people, here for the Third Annual State 4-H Club Congress.

He urged them to "Anchor your rudder to the right kind of ship of life" and to develop their personal character and to build from that character a successful life.

Dr. E. T. York, Jr., provost of Agriculture, University of Florida, introduced Comptroller Dickinson to the congress. Dickinson received a standing ovation before and after his speech.

Dr. J. Wayne Reitz, president of the University of Florida, welcoming the group to the campus, urged them to continue their education. "Following the course that will help you contribute to society and give you the greatest satisfaction," Dr. Reitz told the 4-H delegates.

Dr. Reitz was presented with a resolution and a plaque shaped like the State of Florida, for his distinguished leadership and meritorious service to the youth of Florida.

Dr. Reitz welcomed an international 4-H delegation from Costa Rica, Columbia, Nicaragua, Mexico, Guatemala, and Venezuela to the campus. He commended them for using their 4-H know-how in the fight against hunger in their respective countries. Dr. Reitz cited

Movie Films Are Available From Phone Co.

Movies—free for the asking are available to clubs and other organized groups in the Glades area.

Charles Leonard, Southern Bell manager, said that the company has a wide variety of motion pictures available without charge to civic, religious, community and youth groups.

"We have films on communications, advances in science safety and general interest subjects," he said. "And at this time of year, most of them are obtained easily."

The demand for movies is high during the fall, winter and spring seasons, Leonard noted. However, during summer months when school is out and when many organizations do not meet regularly, most films are readily available.

"The movies cover such a wide range of subjects that almost any group is sure to find one or several of interest," he said. "Most of the films—which run from eight to 60 minutes—are in color."

Arrangements for borrowing a film can be made through Southern Bell's local business office.

Mr. and Mrs. James Gibson and daughter, Jaime, left Wednesday for Thomasville, Georgia, where they will spend a week visiting his parents, Mr. and Mrs. Major Gibson.

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

"Freedom must be at all times defended, because it is at all times besieged. Not all of us are called to fight on the battlefield. Many of us must, quietly and firmly, do what we can and all that we must, here at home. Buying Bonds, regularly, is as important to this nation in the long reach of history as almost anything we can do."

Now— U. S. Savings Bonds Pay More Interest

4.15% when held to maturity

***Higher interest on the
Bonds you already own, too!***

U.S. Savings Bonds are a better way to save than ever

Because now all Series E and Series H Bonds bought after December 1, 1965, will earn the new, higher interest rate of 4.15% when held to maturity. That's only 7 years for Series E—9 months quicker than before. All H Bond interest checks will be larger beginning in June 1966.

And your outstanding Bonds will earn more, too, from now on. So, you don't have to cash in your present Bonds to get the attractive

new rate.

Ask about buying Bonds where you work or bank. For America's future. And yours.

"Today, none of us can remain aloof on the sidelines."

"Today, above all, is a time for all Americans to rededicate themselves to the spirit that animated the Minutemen of Concord—who serve as a symbol of the Savings Bond program. For today, as at the founding of our nation, it is freedom which is again at stake. Not all of us are called upon to fight in the jungles of Vietnam, but while our men are there, in the front lines of a distant land, none of us can remain aloof on the sidelines. We must all do our share—in every way we can—to support our men in Vietnam. Our men way is open to all Americans through the Savings Bond program."
